

DATASETS DE ACESSO LIVRE PARA PROJETOS DE I.A.!

Compilado por: Dr. Arnaldo de Carvalho Junior

A melhor forma de aprender o poder da inteligência artificial (IA) é criando projetos e aplicações com ela.

O sucesso de um projeto de IA começa pela análise, seleção, tratamento e filtragem do conjunto de dados a serem utilizados no treinamento da IA. O tempo demandado nesta etapa permitirá economizar tempo nas etapas futuras do projeto, minimizar o uso de recursos computacionais e elevar o nível de acurácia da IA.

A seguir são relacionadas alguns dos repositórios de conjuntos de dados (*datasets*) de acesso livre para projetos de IA mais difundidos.

Datasets de Universidades
